EDUCATION

Primagraha University 2021-2025

Department of Information Systems

SKILLS

Teknologi & Tools:

Frontend Development:

- Frameworks: React.js, Next.js 15, Alpine.js
- Languages: JavaScript, TypeScript, HTML5, CSS3
- Styling: Tailwind CSS, Responsive Design, Mobile-First Approach
- State Management: TanStack Query (React Query)
- UI Libraries: Lucide React, React Hot Toast

Backend Development:

- Languages: PHP 8.2, Node.js
- Frameworks: Laravel (Latest), Express.js
- API: RESTful API, JWT Authentication
- Template Engine: Blade

Database & Cloud:

- Database: MySQL, MongoDB
- Cloud Services: Google Cloud Platform (GCP), Vercel
- Version Control: Git, GitHub

Development Tools

- IDE: VSCode
- API Testing: Postman
- Design: Figma
- Package Managers: Composer, npm
- Build Tools: Vite
- HTTP Client: Axios

RELEVANT EXPERIENCE AND PROJECTS

Sistem Manajemen Manufaktur | Full-Stack Developer | 2025

Tech Stack: Laravel, PHP 8.2, MySQL, Tailwind CSS, Alpine.js, AJAX

Key Achievements:

- Developed comprehensive manufacturing management system handling inventory, transactions, and financial reporting
- Designed normalized database schema with 15+ tables and 25+ migrations
- Implemented RBAC (Role-Based Access Control) with 3 user levels
- Built 15+ RESTful controllers following MVC best practices
- Created features: real-time stock tracking, automated invoicing (PDF), financial reports (Excel export)
- Reduced manual inventory tracking time by 70%
- Codebase: 10,000+ lines of production code, 100+ routes, 80+ Blade templates

Task Management Application - COREnglish | Frontend Developer | 2025

Tech Stack: Next.js 15, TypeScript, TanStack Query, Tailwind CSS, Axios

Key Achievements:

- Built full-featured task management app as technical assessment in ~3 hours
- Implemented complete CRUD operations with optimistic UI updates
- Created responsive design with mobile-first approach
- Developed features: status filtering, pagination, statistics dashboard
- Achieved high web vitals scores for performance and accessibility
- Successfully deployed to production on Vercel

Bootcamp Fullstack Developer - Online | 2023

Bangkit Academy - Cloud Computing Cohort (Google, GoTo, Traveloka)

- Designed cloud architecture and deployment using GCP
- Collaborated in cross-disciplinary teams (ML, Mobile, Cloud)
- Delivered cloud-based applications using best practices

Movie App - Fullstack Web Application | 2023

Tech Stack: React.js, Node.js, MySQL, JWT

- Built movie listing platform with genre filters and watchlist features
- Implemented secure JWT authentication and optimized API performance
- Integrated Visual Location AI-based Tourism App with GCP, Flask

CERTIFICATIONS & TRAINING

- Google Cloud Platform (GCP) - Bangkit Academy
- Full-Stack Developer - Harisenin.com

KEY STRENGTHS

- Full-Stack Expertise: Proficient in both frontend (React, Next.js, TypeScript) and backend (Laravel, Node.js) development
- Database Design: Experience designing complex database schemas and optimizing queries
- Modern Best Practices: Clean architecture, SOLID principles, responsive design
- Quick Learner: Successfully completed technical assessments and adapted to new technologies rapidly
- Production Ready: Experience deploying and maintaining production applications
